Fees and expenses

What you have to pay depends on the guarantee level you decide on – 75/75 guarantee, 75/100 guarantee or 100/100 guarantee – the segregated fund you hold, the market value of your total holdings and the amount of the advisory and management service (AMS) fee.

If you select a reset option additional fees apply.

These fees will be charged by redeeming units from each segregated fund.

Investment management fee

For each segregated fund you hold in your policy you will pay an investment management fee plus applicable taxes. The investment management fee varies depending on the guarantee level, segregated fund chosen and the market value of your total holdings.

The investment management fee bands will be set out in the preferred series 2 fee agreement.

Operating expense fee

For each segregated fund you hold in your policy you are responsible for paying all respective operating expenses related to preferred series 2 plus applicable taxes. The current annualized operating expense fee for each segregated fund will be set out in the preferred series 2 fee agreement. As operating expenses change, we may change the operating expense fee rate, from time to time without notice to you.

Advisory and management service (AMS) fee

For each segregated fund you hold in your policy you will pay an AMS fee plus applicable taxes. The AMS fee is negotiated between you and your advisor subject to our then-current administrative rules. The AMS fee must be between 0.50 per cent and 1.25 per cent and will be set out in the preferred series 2 fee agreement.

For more information about the fees, see *Fees and expenses* section in the information folder.

How much does it cost?

The following table shows the fees and expenses you could pay to invest in or redeem units of the fund.

1. Sales charges

Sales charge option	What you pay	How it works
Preferred series 2 FEL option	Up to 2% of the amount you invest.	<ul style="list-style-type: none"> You and your advisor determine the rate. The fee is deducted from the amount you invest. It is paid as a commission.

These fees reduce the return you get on your investment. The advisory and management service fee is negotiable and the fee ranges between 0.50% and 1.25%.
