

Investment personality questionnaire

What type of investor are you? How comfortable are you with investment risk? Discover your investment personality by answering the following 14 questions.

This questionnaire helps you identify your investment personality and build an optimal investment portfolio that best suits your risk tolerance and retirement goals.

Please circle the corresponding point value for the answer that best suits you. Tally your points for each section in the box provided.

> Section one – Investment objectives

1. What is the intent of your portfolio? Please select the most appropriate one.

	Points
a. To generate income for today	0
b. To generate income at a later date	10
c. To provide for my dependents (I do not anticipate using these funds)	15
d. To fund a large purchase in the future	10

2. What is your major goal for your portfolio? Please select the most appropriate one.

	Points
a. To ensure my portfolio remains secure	2
b. To see my portfolio grow and to avoid fluctuating returns	5
c. To balance growth and security, and to keep pace with inflation	10
d. To provide growth potential, and to accept some fluctuation in returns	15
e. To provide the sole objective of potential long-term growth	20

> Section two – Personal information

3. Which of the following ranges includes your age?

	Points
a. Under 30	15
b. 30 to 39	15
c. 40 to 49	15
d. 50 to 59	10
e. 60 to 69	5
f. 70 to 79	3
g. Over 79	2

4. Which of the following ranges best represents your current annual family income (including pensions) before taxes?

	Points
a. Under \$30,000	4
b. \$30,000 to \$60,000	6
c. \$60,001 to \$90,000	8
d. \$90,001 to \$120,000	10
e. More than \$120,000	10

5. After deducting any loan or mortgage balances, which one of the following ranges best represents your immediate family's overall net worth?

	Points
a. Under \$30,000	2
b. \$30,000 to \$50,000	4
c. \$50,001 to \$100,000	6
d. \$100,001 to \$200,000	8
e. \$200,001 to \$300,000	10
f. More than \$300,000	10

Total points for section two

> Section three – Investment horizons

Investors often have distinct phases in their investment plans. The initial phase is savings and growth. During this time an investor builds up a portfolio toward a future goal. The second phase is typically the use of funds, either for a specific purchase or for income.

6. When do you anticipate using these funds?

	Points
a. Immediately*	0
b. One to three years*	0
c. Four to five years	5
d. Six to 10 years	10
e. 11 to 15 years	15
f. 16 to 20 years	20
g. More than 20 years	20

7. At the time you need this money, when will you withdraw it?

	Points
a. All at once, in one lump sum*	3
b. Over a period of less than two years*	3
c. Over a period of two to five years	5
d. Over a period of six to nine years	8
e. Over a period of 10 to 15 years	10
f. Over a period of more than 15 years	15

*If your response to question six is either (a) or (b), and your answer to question seven is also (a) or (b), your needs are short term. Consider using money market funds or short-term guaranteed interest investments to meet your savings goals.

This retirement plan is intended for long-term investing. Using this money for purposes other than retirement planning is not advised and may not be allowed under the registered pension plan locking-in rules.

8. What are your intentions regarding withdrawals and/or contributions to your investments today and over the next five years?

	Points
a. I plan to withdraw money at regular intervals and do not plan on making contributions.	5
b. I will likely make a lump-sum withdrawal and do not plan on making contributions.	7
c. I will likely be making both contributions and withdrawals.	8
d. I will likely make additional contributions and will not be withdrawing any funds.	10
e. I will certainly make regular contributions and will not be withdrawing any funds.	15

Total points for section three

> Section four – Attitude toward risk

9. Which statement best describes your knowledge of investments?

	Points
a. I have very little knowledge and I rely exclusively on the recommendations of financial advisors.	2
b. I have limited knowledge of stocks and bonds, and I do not follow financial markets.	5
c. I have good working knowledge and I regularly follow financial markets.	8
d. I understand completely how different investment products work; including stocks and bonds, and I follow financial markets closely.	10

10. Realizing there will be downturns in the market, in the event of a significant loss, how long are you prepared to hold your existing investments in anticipation of a recovery in value?

- | | |
|---------------------------------|--------|
| | Points |
| a. Less than three months | 5 |
| b. Three to six months | 8 |
| c. Six months to one year | 10 |
| d. One to two years | 15 |
| e. Two to three years | 20 |
| f. Three years or more | 25 |

11. Assuming you invest \$100,000 for the long term, what is the maximum drop in your portfolio's value you could comfortably tolerate in any given year?

- | | |
|--|--------|
| | Points |
| a. I would be uncomfortable with any loss.* | 2 |
| b. A \$5,000 drop is all I could live with. | 5 |
| c. A \$10,000 decline is something I could tolerate. | 10 |
| d. A \$15,000 drop would be about all I could stand. | 15 |
| e. A \$20,000 decline is pretty much my limit. | 20 |
| f. I could live with a decline of more than \$20,000. | 25 |

12. Which of the following statements most correctly describes your investment philosophy?

- | | |
|---|--------|
| | Points |
| a. I cannot accept any fluctuation in principal.* | 5 |
| b. I can only accept minimal fluctuations and prefer to invest in safer, lower-return investments. | 10 |
| c. I am willing to tolerate some ups and downs in the value of my investments to achieve overall higher returns in the long run. | 20 |
| d. My main interest is high, long-term returns and I am not concerned about short-term decreases in the value of my investments. | 30 |

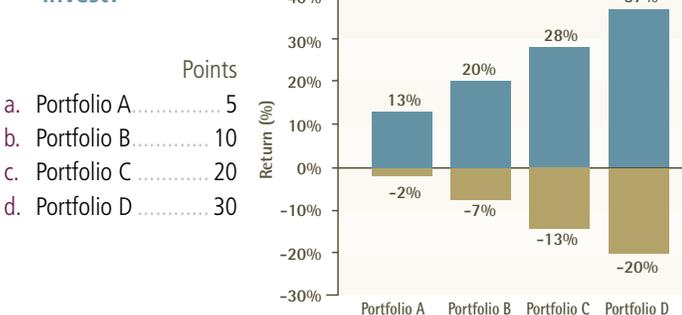

Total points for section four

*If your response to question 11 or 12 is (a), you should re-evaluate your need for growth and carefully consider your desire for stability. Portfolios without fluctuations in values generally have no growth component. If you cannot tolerate loss, even short term, consider using money market funds or short-term guaranteed interest investments to meet your savings goals.

> Section five – Portfolio volatility

Investment portfolios aimed at providing higher returns tend to have greater swings in value (providing both gains and losses). The more aggressive your portfolio, the more pronounced these swings become, and the more often short-term losses can occur.

13. A portfolio is a basket of different investments. The returns earned by a specific portfolio depend on the mix of investments that make up the portfolio. The following graph shows the probable range of returns (from best to worst) of four hypothetical portfolios over a one-year period. In which of these portfolios would you prefer to invest?

14. Some investors are more willing than others to accept periodic declines in the value of the portfolio as a trade-off for potentially higher long-term returns. Which response best represents your feelings toward the following statement?

I am willing to experience potentially large and frequent declines in the value of my investment if it will increase the likelihood of achieving higher long-term returns.

- | | |
|----------------------------|--------|
| | Points |
| a. Strongly agree | 20 |
| b. Agree | 15 |
| c. Disagree | 10 |
| d. Strongly disagree | 5 |

Total points for section five

Add up the section points to get your final total.

+ Section three	<input style="width: 30px; height: 30px;" type="text"/>		+ Section four	<input style="width: 30px; height: 30px;" type="text"/>
+ Section five	<input style="width: 30px; height: 30px;" type="text"/>		Final total =	<input style="width: 30px; height: 30px;" type="text"/>

Match your final total to an investment personality below.

If your final total is between....

Your investment personality is....

- | | |
|-------------------|--------------|
| 105 or less | Conservative |
| 106 to 135 | Moderate |
| 136 to 164 | Balanced |
| 165 to 199 | Advanced |
| 200 or more | Aggressive |

Your investment personality is: _____

Name _____

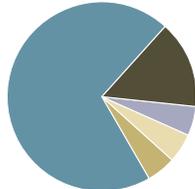

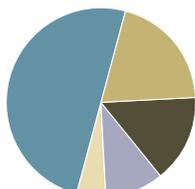

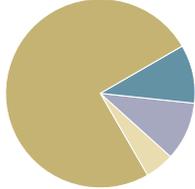

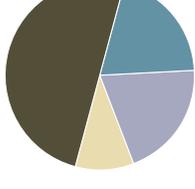

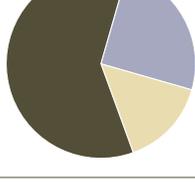

Date _____

Over time, your financial objectives, personal circumstances and the level of risk you're comfortable with will change. We recommend you revisit the *Investment personality questionnaire* regularly or whenever your personal circumstances change significantly, for example: marriage, promotion, etc. The questionnaire is available electronically on www.grsaccess.com or call *Access Line* at 1-800-724-3402 for a print version.

This questionnaire is not a suitable tool for determining an investment strategy for short-term savings or for purchases in the near future. It's intended for retirement planning and long-term savings.

Select investment options based on your investment personality

The chart below shows you how to build an optimal investment portfolio. First match your final total to the corresponding investment personality and portfolio. Then use the suggested asset mix to select appropriate investment options. The risk meter shows the level of investment risk associated with each portfolio.

If your final total is between	Your investment personality/ portfolio is	Description of your investment portfolio	Suggested asset mix
105 or less	Conservative	With a primary emphasis on income, this portfolio is the most conservative option. It's designed for investors who have a short period of time to invest, want a regular income stream and have concerns about investment volatility. A small equity component is included to help bolster returns above fixed income levels, while minimizing the risk to the portfolio.	 <ul style="list-style-type: none"> 70% Fixed income 15% Canadian equity 5% Foreign equity 5% Special equity 5% Balanced
106 to 135	Moderate	This portfolio is designed for investors who have a medium period of time to invest and prefer more income than growth. The investment mix is managed to ensure lower volatility than other more aggressive options, while still providing a solid component for growth.	 <ul style="list-style-type: none"> 50% Fixed income 20% Balanced 15% Canadian equity 10% Foreign equity 5% Special equity
136 to 164	Balanced	This portfolio is designed for investors who want a longer-term balance between growth and income at reduced volatility levels. The portfolio is managed to take advantage of market conditions.	 <ul style="list-style-type: none"> 75% Balanced 10% Fixed income 10% Foreign equity 5% Special equity
165 to 199	Advanced	With a primary emphasis on growth, this portfolio is made up mostly of equities. It's appropriate for investors who want some income in the short term, but are more interested in long-term capital appreciation.	 <ul style="list-style-type: none"> 50% Canadian equity 20% Fixed income 20% Foreign equity 10% Special equity
200 or more	Aggressive	This portfolio consists solely of equity investments for investors who want the potential for maximum long-term growth. It's appropriate for investors with a long period of time to invest and who aren't concerned about short-term investment volatility.	 <ul style="list-style-type: none"> 60% Canadian equity 25% Foreign equity 15% Special equity

Low risk

RISK METER

High risk

The suggested asset mix consists of various asset classes, such as fixed income, balanced and Canadian equity. Use the asset class percentages to allocate your contributions to specific investment options associated with these asset classes. For example, if you're investing \$10,000 in an Aggressive Portfolio, \$6,000 or 60 per cent of your savings should go toward Canadian equity funds, \$2,500 or 25 per cent to foreign equity funds, and \$1,500 or 15 per cent to special equity funds.

It's a good idea to invest no more than 25 per cent of your investments in any one fund. For asset classes where the recommended percentage is more than 25 per cent, consider selecting more than one fund in that asset class.

This questionnaire has been developed to assist you in assessing your financial circumstances, investment timeframe and attitude toward risk for the purpose of allocating your retirement savings among a broad range of investment options available through The Great-West Life Assurance Company. While reasonable efforts have been made to ensure the accuracy of the information and the calculations contained in this questionnaire, the responsibility for determining the most appropriate allocation to meet your needs remains with you. It is not designed to provide you with legal, tax, financial or other professional advice; independent advice should be sought. Great-West Life and its subsidiaries, London Life Insurance Company and The Canada Life Assurance Company, are not responsible for any damages resulting from the use of this questionnaire by you or any other person, however caused.
